

AESR 5.2: The region is hot moist semi-arid ESR with medium and deep, clayey Black soils (shallow black soils as inclusions), medium to high AWC and LGP 120-150 days in a year.

Districts	<i>Land degradation</i>	<i>Soil health & fertility</i>	<i>Water related constraints</i>	<i>Environmental constraints</i>
Bundi	Exclusively water erosion & Ravine	Low in OC & Soil deficient in N	Saline, GW Contaminated with F, NO ₃ & Fe	-
Banswara	Exclusively water erosion & Ravine	Low in OC, Soil deficient in N, Zn & Fe	Contaminated with F, NO ₃ & Fe	Severe Drought
Baran	Exclusively water erosion & Ravine	Soil deficient in N & S	Saline, GW Contaminated with F, NO ₃ & Fe	-
Chittaurgarh	Exclusively wind erosion	Low in OC	Saline, GW Contaminated with F, NO ₃ & Fe	-
Jhalawar	Exclusively wind erosion	Low in OC	Saline, GW Contaminated with F, NO ₃ & Fe	-
Kota	Exclusively water erosion & Ravine	Soil deficient in N	Saline, GW Contaminated with F, NO ₃ & Fe	-
Pratapgarh	Exclusively wind erosion	Low in OC, Soil deficient in Fe & B	Contaminated with F, NO ₃ & Fe	-
